The backing, from the start of the Association of Commerce and Services of Infiesto (ACOSERVI) has allowed Infiesto to hold two remote refuellings and a regrouping which have been added with the collaboration of Piloña's council after this morning's meeting between Iván Allende, Major of Piloña, Miguel Diego, from ACOSERVI, and Julián Moreno, President of the Automóvil Club Principado de Asturias.

Infiesto, through ACOSERVI, was the starting point for the collaboration between the organisers of the Rally Princesa de Asturias Ciudad de Oviedo and the local associations that, in a parallel fashion to the rally are organising parking, service and recreation areas especially for the enjoyment of the fans attending the special stages.
